

## Covid-19 Measures

- We ask that guests do not attend the restaurant if they have Covid symptoms, have tested positive or are self isolating or quarantining
- All our staff have been trained in the new measures involved in making our workplace Covid-Secure
- Staff will be wearing face masks
- Staff temperatures are taken daily on arrival and all staff have completed a Health Declaration before returning to work, with daily health status reports required before work
- Social distancing is practiced between staff and customers. Our table floor plan has been reconfigured to allow for more space between tables
- Sanitisers are provided at the entrance, around the dining room and in the lavatories, we ask that guests use these while dining with us
- Customers will be required to wear masks when inside the premises and travelling through the premises. The only times they can remove their masks is when seated for drinking and/or eating.
- Enhanced cleaning of contact surfaces is carried out at regular intervals.
- We have a one way system, arrival via the Mews and exit onto Charterhouse street
- The basement toilets are temporarily out of bounds to customers to reduce traffic on our stairs. Please use those on the ground floor (in the Rendezvous).
- We are unable to store personal belongings, so kindly ask our customers to bring as few belongings as possible
- As part of Track & Trace we will keep contact details of everyone entering the premises for 21 days and they will not be used for anything other than this purpose
- No one is allowed inside the premises without prior appointment
